

Professional Summary

Bachelor of engineering (Informatics Engineering) with 2 years of experience as Full Stack Developer. Familiar with modern Front-End and Back-End such as Next JS (React JS) and Node JS using JavaScript and TypeScript. Known for excellent problem-solving skills, attention to detail, and ability to work both independently and as part of a team.

Professional Experience

FrontEnd Developer

Saigon Beauty, Ho Chi Minh, Vietnam
September 2025

- Led the UI/UX design considerations—selecting color schemes, typography, and image styling to match a professional medical aesthetic.
- Implemented the front end using React components and Tailwind CSS utility classes to build reusable, responsive layout modules.
- Set up page routing using Next.js, ensuring smooth transitions and SEO-friendly paths.
- Optimized page speed: image lazy loading, minified CSS & JS, and optimized asset delivery.
- Deployed the final project on Vercel, handling build optimizations and ensuring reliable hosting.

FrontEnd Developer

Tri Artha Manunggal, Tangerang, Indonesia
January 2025 - Present

- Developed and Maintained company internal website using Next.js, implementing Server-Side Rendering (SSR) to enhance SEO and initial load performance.
- Translated Figma designs into pixel-perfect, mobile-friendly layouts
- Implemented performance enhancements (lazy loading, code splitting, etc.) to improve page speed.
- Used Git and GitHub for version control and Documentation.

FrontEnd Developer

GreatStack, Bengaluru, India

April 2024 - December 2024

- Focused on Responsive Landing Page with React.JS and Vite.
- Managed the UI/UX Design for optimal Website.
- Managed databases using Firebase.

FrontEnd Developer

Norland Indonesia, Jakarta, Indonesia

January 2024 – February 2024

- Developed Website using React.JS and Vite.
- Participated in sprint planning and daily stand-up meetings to track project progress.
- Create Website Landing Page and Responsive.

Full Stack Developer

Javascript Mastery, Remote

September 2023 – October 2023

- Developed Website using React.JS and Next.JS.
- Implement RESTful APIs for integration with SteamAPI.
- Managed authentication using Clerk Provider.
- Conducted debugging and troubleshooting to resolve application issues.
- Created technical documentation for ongoing projects.

Full Stack Developer and UI UX Design

BuildWithAngga, Jakarta, Indonesia

January 2023 – July 2023

- Develop and maintain web applications using HTML, CSS, JavaScript, and React.
 - Collaborate with cross-functional teams to design system architecture and ensure code quality through code reviews and testing.
 - Implement RESTful APIs for integration with third-party services.
 - Resolve bugs and improve application performance based on user feedback and test results.
 - Work closely with UI/UX teams to ensure optimal user experience.
-
